2	44	50
3	42	50
4	33	39
5	25	30
6	21	23
7	8	8

Start of Sprint:

Sprint Backlog

T57: Implement Problem Tags in Database (3)

T58: Implement Problem Set Tags in Database (3)

T59: Implement Problem Set Tags in Data Model

T60: Implement Problem Tags in Data Model

T61: Implement GUI to search problems by tags (2)

In Progress

T44: Implement View Problem Set screen (3)

T45: Implement answering questions screen (5)

T50: Create JUnit Tests to test action, commands, databaseAPI, driver and the io using Mock Objects

Verification
