

The Kanban board is organized into four columns: **Sprint Backlog**, **In Progress**, **Verification**, and **Completed**. Each column contains a list of tasks, each represented by a card with a title, a description, and a status icon (SZ, SC, or AK). The **In Progress** column is highlighted with a large blue arrow pointing right, indicating the current stage of the sprint. The **Completed** column is highlighted with a large blue arrow pointing left, indicating the end of the sprint.

Sprint Backlog	In Progress	Verification	Completed
U5 T21: Expand database to associate release date and deadline for problem set SZ	U2 T11: Action for extracting question(2) SZ		U2 T11: Action for extracting question(2) SZ
U5 T22: Expand API to support new attributes in Problem Set table SZ	U4 T20: Implement GUI with backend(8) SC		T25: Fix pipeline to properly use actions and commands (3) SZ
T23: Expand output generator to support output of object models SZ	U3 T14: Implement command and action for problem sets(2) SZ		T23: Expand output generator to support output of object models (1) SZ
T24: Use Problem/Problem Set object models for database operations SZ			U3 T14: Implement command and action for problem sets(2) SZ
T25: Fix pipeline to properly use actions and commands (3) SZ			U5 T21: Expand database to associate release date and deadline for problem set (2) SZ
